

2. DEPUTATIONS BY APPOINTMENT

2.1 CENTRAL CITY REVITALISATION

Mark Bachels and Kay Carston provided the Board with an overview of the Council's plans for the revitalisation of the central city and of the opportunity soon to be available to the Board to consider and respond to a discussion document on the matter.

All Boards were being invited to participate through engaging their respective communities, with the resulting feedback being utilised by the Council in its decision making.

The Board expressed a preference for a single combined meeting involving community representatives.
