

### **23. FERRY ROAD – BUS SHELTER**

The Board considered a report seeking support for the installation of an Adshel bus shelter in Ferry Road.

The Board had previously heard submissions on the positioning of this bus shelter from Mr Warren Rogers of Warren Rogers Motors Ltd. Nevertheless, after considering the size of the proposed shelter, its location, glass construction and the amount of obscuration likely to be caused by the proposed advertisements, the Board reached the conclusion that this was the most appropriate position for a shelter and that the negative effects upon the business behind the shelter would be very minimal.

The Board **resolved** to approve the installation of an Adshel advertising shelter outside the property at 260 Ferry Road.
