

1. DEPUTATIONS BY APPOINTMENT

1. LILLIAN STREET FLOODING

Residents and shopkeepers from the Lillian Street area were in attendance to address the Board on the stormwater problems being experienced there.

During persistent rainfall the stormwater system cannot cope with the water, resulting in flooding which isolates the shops and makes it very difficult for pedestrians and motorists.

On behalf of the Water Services Unit, Mr Tom Brien (Customer Services Manager) responded to the concerns of the deputation with information on the remedial work to be undertaken.

Further discussions would be held, and the Board would be kept informed of the outcomes.
