

## 2. PETITIONS RECEIVED

### 1. TEMPLETON DOMAIN SKATEPARK

Under cover of a letter received from the Secretary of the Templeton Residents Association, Allan Blondell and 46 other young persons wrote:

*“....one of many skateboarders in Templeton and I was wondering if the Council could add on to Templeton skate park since I am only 13.....such as ramps, steps, more concrete, rails...”*

The City Design Unit estimates that the work requested by the petitioners could cost up to a maximum of \$5,000.

In receiving the petition the Board **decided** to refer it to the Board’s Environmental Committee for further consideration.

Other domain users and the local community would need to be surveyed to ascertain the support for an enlarged skateboard facility, whether it might conflict with other uses sought for the domain, for example.
