

2. DEPUTATIONS BY APPOINTMENT

(a) Central City Revitalisation

Mark Bachels and Carolyn Denne from the central city revitalisation core staff team spoke to the Board regarding how best to involve the community in the consultation on the central city revitalisation. Members of the Board requested that members of the elderly community, and young mothers be included in the process. It was suggested that tiers of meetings, both formal and informal take place in each ward, as each ward area has different issues in relation to the central city. The Community Advocate is to liaise with the Central City team regarding this.
