

17. PETITION

Ingrid Stonhill presented a petition against the proposed Acheson Avenue café/winebar and asked for support from the Board. She advised the Board that there was a high level of opposition to the proposal from residents as there is a kindergarten situated 60 metres from the site, and the presence of a bar in such close proximity was not appropriate. The Community Technical Adviser reported that there were several processes the proposal would have to go through before approval, such as a resource consent application, liquor licence application and Police approval.
