

12. 2001/02 ROADING PROGRAMME

A report from the Projects Manager provided an update of progress for projects in the Burwood/Pegasus Community Board area which are programmed in the budget for the 2001/02 financial year. The Board **decided:**

1. That the information be received.
2. That a letter be sent to the Manager of the City Streets Unit seeking the urgent convening of a joint Board/Sustainable Resources Committee Working Group to consider outstanding issues, including a start date for work on the Travis Road Traffic Management project, parking along ANZAC Drive between Travis Road and New Brighton Road, and the possible renaming of Travis Road between Burwood Road and Frosts Road to ANZAC Drive.
3. That the Board hold a public meeting on the proposed Joy Street Neighbourhood Improvement Works when the consultation findings are available.
