

14. FENDALTON ROAD – UPDATE

The Board **received** an information report providing an update on the current situation with regard to the resource consent application for the proposed widening of Fendalton Road and the associated proposed changes at the northern end of Tui Street.

The report highlighted that the independent commissioner had released an interim decision in September with the Hearing being adjourned so as to provide the Council and other relevant parties with an opportunity to further address several matters prior to the Hearing being reconvened on 18 and 19 December 2001.

The specific matters related to:

1. the design of the cycle facilities in proximity to bus stops;
2. the potential for a median gap opposite Waiwetu Street; and
3. the issue of parking in the vicinity of St Barnabas Church related to Church activities.

Officers responded to several questions from members.
