

6. HEBERDEN AVENUE – PARKING RESTRICTION

Officer responsible City Streets Manager	Author Lorraine Wilmshurst, DDI 371-1662
Corporate Plan Output: On Street Management	

The purpose of this report is to seek approval for the installation of a no parking restriction in Heberden Avenue.

Problems have been experienced in Heberden Avenue with traffic travelling on the wrong side of the road. To help eliminate some of the problems that are occurring a centre line has been placed at the approach and departures of all intersections.

In discussion with some of the residents in the area, concerns were also raised about the narrowness of the section of Heberden Avenue between Colenso and Arnold Streets. After some investigation it was agreed that a parking ban in this area, along the eastern side (hill side) would increase safety.

Local residents canvassed the properties that will be affected by this decision and the majority are in favour. They have also been notified by way of a flyer, that this parking ban is being recommended.

Recommendation: That the parking of vehicles be prohibited on the eastern side of Heberden Avenue commencing at a point 4 metres north of its intersection with Colenso Street and extending in a southerly direction for a distance of 169 metres.
