

23. **PARKS AND WATERWAYS CAPITAL WORKS PROGRAMME 2001/02**

The Parks and Waterways Advocate reported that the consultation on Macfarlane Park had so far comprised meetings with concerned stakeholders. He was hoping to tie up the consultation with the event in Macfarlane Park, and requested the Shirley members help in the consultation process. He advised that research was being undertaken for an alternative use for the rental property at Abberley Park.

The Chairperson requested a report to the January Board meeting on an official opening at Champion Reserve. It was suggested that positive stories such as the opening of the Reserve be used more in the media.

The Board **received** the report of the Parks and Waterways Capital Works Programme 2001/02.
