

13. STORM 11-13 OCTOBER 2000 FOLLOW-UP REPORT - BEXLEY DRAINAGE SYSTEM

The Team Leader, City Solutions, informed the Board of and sought support for flood damage reduction measures proposed for the Bexley area following a review of the drainage system carried out since the extreme storm experienced on 11 to 13 October 2000. The Board **decided:**

1. That the Board support the suite of flood damage reduction measures described in the report for the Bexley area on the understanding that the issues raised in a deputation to the Board by the Bexley Residents' Association will be considered in the design of the measures.
2. That the Bexley Residents' Association be asked to propose names for waterways in the Estuary Drain catchment mentioned in the report and to provide an explanation of the significance of each proposed name.
