

**14. THE STYX 2000 - 2040
COMMUNITY PLANNING FOR THE FUTURE**

A report from the Education Co-ordinator, Parks and Waterways, sought support for the five inter-related visions for the Styx that have resulted from extensive public consultation. They build on the long-term vision for areas 3 and 4 of the Waterways and Wetlands Asset Management Strategy, an area that relates to the Styx River and its associated waterways and wetlands. The Board **decided:**

1. That the Board recommend to the Parks and Recreation Committee that the Council's Waterways and Wetlands Natural Asset Management Strategy be amended to include the detailed strategy that has been developed from the process outlined in the report.
2. That plans for Capital projects be presented to the relevant Community Board(s) and Council Committee(s) as appropriate.
