

## 5. TRAFFIC MANAGEMENT: PAGES ROAD, BICKERTON STREET, AND OTTAWA ROAD

The Area Engineer sought the Board's support for the installation of traffic management improvements in Bickerton Street, Ottawa Road and Pages Road, in particular approval for the installation of "Give Way" controls against Bickerton Street and Ottawa Road at Pages Road. Other traffic management improvements were referred to the City Services Committee. The Board **decided**:

1. That a circular about the proposed traffic management improvements in Pages Road, Bickerton Street and Ottawa Road be distributed to all residents and sports facilities in the area.
2. That residents and users of the sports facilities be invited to attend a public meeting in July, chaired by Alister James, to discuss the revised design.
3. That the Leisure and Parks and Waterways Units report to the Board on the safety of the car parking by Cowles Stadium and the allocation of parking to users of neighbouring facilities.
