

15. BUS SERVICES - TIMING POINTS FERRY ROAD

During the discussion with representatives from Environment Canterbury and the RedBus Company relating to bus stops in the Rolleston Avenue area the issue of bus timing points in Ferry Road was raised and it was suggested that when choosing timing points these should be located away from sensitive residential issues. In respect to Ferry Road it was noted that it is proposed that bus timing points be relocated from November 2001 and in addition the Subcommittee recommended that a bus shelter be installed opposite Woolworths in Ferry Road subject to consultation.
