

## 28. BUS STOP ENFORCEMENT

The Committee considered a report from the Parking Operations Manager on options for enhancing the Policing of illegal parking on bus stops, with the emphasis on stops within the central city.

The request for the report arose from the 5 July meeting of the Bus Stops and Shelters Subcommittee when the subject of illegal parking on bus stops was raised by bus operators.

The report detailed various options for increasing enforcement and provided cost details for these.

The Committee agreed with the Parking Operations Manager on the measures to provide additional resources for the enforcement of no stopping restrictions on bus stops within the central city area.
