

27. ESTUARY GREEN EDGE - CONCEPT PLAN

The Committee considered a report on the revised programme for the production of the Green Edge Concept Plan which noted that it was desirable that the process for consultation on this should be separate from the current resource consent application process for the Christchurch Wastewater Treatment Plant.

The Committee concurred with the proposed actions in the report relating to:

- The closing date for submissions on the Green Edge Concept plan being extended until April/May 2002.
- Key stakeholders to be advised of this extension.
- Information sharing/consultation on the Green Edge project be delayed so as not to interfere with the wastewater consent process.
