

2. DEPUTATIONS BY APPOINTMENT

2.3 Ferry Road Bus Stop

Craig Smith, resident at 909 Ferry Road, addressed the Board about his concerns about the proposal to reposition a bus stop in Ferry Road.

Mr Smith said the bus stop is a danger where it is currently situated. However, a further problem for him is that the stop is being used by three bus routes as a time zone, used to mark time, buses often idle there with the engine running for up to 10 minutes, particularly early in the morning and late in the evening.

This clause also relates to clause 4.
