

## 2. GRASSLANDS PARK PURCHASE

The report from the Parks and Waterways Manager provided an update on the purchase of 159ha of the Shipleys property in the Rural 6 zone of the Proposed City Plan. The zone corresponds with the area known as the Canterbury Plains Grasslands Park.

In speaking to her report Liz Briggs advised that there were currently a number of references before the Environment Court relating to the zone.

Neville Bishell provided information on various Environment Canterbury pastoral leases in the zone and the conditions that related to their renewal.

The Committee decided to **receive** the information.
