

1. PETITION

Martin Meehan from Kidds Cakes and Bakery presented a petition from business owners at the Cranford Street/Innes Road shopping block requesting several 60 minute car parks. Mr Meehan stated that the Transit proposal for the intersection is to remove all the parking to allow better flow through of traffic. Mr Meehan stated that this proposal would adversely affect all of the businesses in this block. He suggested that parking bays be installed on Cranford Street and on Innes Road, as per maps included with the petition. There are already bus bays, that he suggested could be extended. This would allow better flow through of traffic and also provide carparking for customers. Mr Meehan also requested a right turning phase be added to the traffic lights at this intersection to increase turning safety. Mr Meehan provided a letter of support from the landlord of the building for the business owners requests. Board members thanked Mr Meehan for providing a workable solution for the problem.
