

## 2. DEPUTATIONS BY APPOINTMENT

### 2.2 PEGASUS HEALTH - DIABETES TESTING PROGRAMME

**Sue Williams** from Pegasus Health was in attendance to outline a diabetes testing programme to be run at the New Brighton Pier. Approval has been granted for staging the programme on the Pier, subject to health and safety requirements. An alternative venue will also be arranged in case of a wet day.

Pegasus Health and other agencies wish to arrange the event on Saturday 10 November 2001, fitting in with a Push-Play promotion. Blood testing for diabetes will be available and a free breakfast will be provided. It is hoped to attract four to five hundred people.

The Board's support was sought primarily for advertising and promoting the event to the community.

The Board **decided** that the information be received.
