

5. COMMUNITY BOARD PLANNING STATEMENTS – KEY ISSUES

The Committee considered a report on key issues identified by Community Boards through their Annual Plan consultations with local communities.

The Committee **decided** that the issues identified by Community Boards be referred to the relevant units for consideration when preparing their sections of the Draft Annual Plan for 2002/03, and that Unit comment be reported to the Annual Plan Working Party when it meets to consider the draft budgets, and to the respective Community Boards.
