

## 2. DEPUTATIONS BY APPOINTMENT

### 2.1 Leinster Road – Proposed Give Way Control

Mr Dennis Jamieson of 129 Leinster Road presented submissions requesting that the Board defer making a decision on the proposed Give Way control until traffic planning issues associated with Leinster Road were reviewed. In this regard he referred to the 1986 Merivale Local Area Traffic Plan and the intention for this to be considered in due course.

Mr Jamieson also commented on the present traffic characteristics of Leinster Road and he sought further action being taken by the Council to control non-residential type activities in the L1 residential zone along Leinster Road together with stricter monitoring of conditions where consents for other land uses had been granted.

The Board **decided:**

1. That the submission be received and the matters contained therein be actioned by staff.
2. That the proposal for a Give Way control on Leinster Road at its intersection with Rossall Street be deferred pending a report on traffic planning for this immediate area being made to the Works and Traffic Safety Committee during the balance of this Board term.
