

## 5. CHRISTCHURCH INJURY PREVENTION

A report was **received** about the Christchurch Injury Prevention Strategy that sought feedback from the Board on injury prevention and safety issues, as part of the development of the strategy.

The Board **decided** to defer consideration of a report seeking feedback on the Christchurch Injury Prevention Strategy as it agreed to participate in a joint board seminar hosted by the Burwood/Pegasus Community Board to provide feedback to the project team on injury prevention and safety injuries to assist in the development of the Christchurch injury prevention strategy.
