

## 5. BANKS AVENUE/McBRATNEYS ROAD INTERSECTION IMPROVEMENTS

A report from the Area Engineer sought the Board's support for the deferral of the proposed Neighbourhood Improvements Works at the intersection of Banks Avenue, McBratneys Road, Dallington Terrace and River Road.

As McBratneys Road and River Road are both collector roads, the Board was asked to recommend the removal of this item from the budget to the City Services Committee. The report was also submitted to the Shirley/Papanui Community Board. The two Boards are identifying possible substitutions to enable the Banks Avenue/McBratneys Road works to be funded in 2001/02. The Board **decided**:

1. That the information be received.
2. To recommend to the City Services Committee that the funding for the Banks Avenue/McBratneys Road Neighbourhood Improvement Works be reprogrammed for 2001/02 as a priority.
3. That, if the City Services Committee agrees with the Board's above recommendation, the Strategy and Resources Committee be asked to make the appropriate adjustments.
