

## 10. ECO-VILLAGE PROPOSAL AND PRINCIPLES

A report from the Community Secretary and the Urban Design Planner outlined the progress made by the Burwood/Pegasus Community Board's Eco-village Working Party and options for advancing the Eco-village proposal and principles by seeking wider Council involvement. The Board **decided**:

1. That this report be forwarded to the Environment Committee for comment and feedback.
2. That the Environment Committee be asked to investigate a proposal to pilot an Eco-village with sustainability principles in Christchurch.
