

12. HORSESHOE LAKE RESERVE ENHANCEMENT UPDATE

The Parks and Waterways Area Advocate and the Project Co-ordinator (Landscape) presented to the Board the results of public feedback on the Horseshoe Lake Reserve Draft Landscape Master Plan November 2000, and asked the Board to endorse the plan for consideration by the Parks and Recreation Committee. The Board **decided:**

1. That the report be deferred to enable further consultation with the Christchurch Golf Club and consideration of issues raised about the dog park, the main car park/toilet, and the mountain bike track.
2. That the City Streets Unit be asked to report on Horseshoe Lake Road traffic issues in light of the draft Landscape Plan.
