1.1 Tui Street – Undergrounding Proposal

Nigel Mayson of 22 Tui Street addressed the Board in support of a residents' proposal to underground the overhead services in Tui Street, between Fendalton Road and Weka Street.

The circulated submission elaborated on the previous contacts made with Councillors and officers and indicated that the affected property owners have agreed to contribute 50% towards the cost of undergrounding.

The Board acknowledged the achievements of the residents to date and it was indicated to Mr Mayson that such initiatives would be supported by the Board, by way of a submission to the Council's Draft Financial Plan. Equally Mr Mayson was invited to lodge a submission on the Draft Plan on behalf of those residents in the street who had expressed a desire to contribute to the funding of the project. Any assistance needed to prepare this was offered by the Fendalton Advocacy Team.
