

9. WITHELLS ROAD PROPOSED PEDESTRIAN ISLAND

The Area Engineer submitted a plan showing the proposed positioning of a pedestrian island in Withells Road along with associated road markings, relocation of bus stops and no stopping restrictions.

Funding for the island had been provided by the Board from its 2000/01 discretionary budget.

The Board noted that the proposal would be circulated for public comment and in due course reported to the City Services Committee for approval.

The Board **received** the information.
