

## 2. DEPUTATIONS BY APPOINTMENT

### (c) Terry Wilkinson – Ouruhia Residents' Association

Terry Wilkinson spoke to the Board regarding the Association's concern that it was not consulted in relation to the Ouruhia Hall relocation proposal. He admitted that the hall is not used as much as it used to be. However, he would like the views of the community known before any decision is made. Terry provided a letter from the Association and some costings that he had done for the refurbishing and relocation of the hall to the school site. Terry stated that the Association does not agree with shifting the hall, and suggests the school might be better served with a relocatable building from, for example, Keith Hay Homes.

The Chairperson reassured Mr Wilkinson that the next step in the process was consultation with the community, should the feasibility study show the relocation was possible.
