

3. WADES AVENUE/PROSSERS ROAD RECONSTRUCTION

The Board considered a report outlining information on the Wades Avenue/Prossers Road reconstruction project.

The Board **decided** to recommend to the City Services Committee that in view of the advice that no Council funding is available for undergrounding, the following recommendations be adopted:

1. That undergrounding of power and telecommunications wiring not be undertaken.
2. That the existing street trees (mostly flowering crabapples) be removed from Prossers Road and replaced with Gingko biloba trees (Maidenhair tree) in both Prossers Road and Wades Avenue.
3. That the publicity leaflet be reissued to residents in early April 2001.
4. That the City Services Committee give favourable consideration to the installation of ducts for the later installation of underground cabling.
5. That a substitution for the Bergenias in this area be found.
6. That consideration be given to planting a larger grade of Gingko tree.
