

9. NOISE FROM MUSIC – OXFORD TERRACE BARS

A report from the Legal Services Manager detailed the meetings held with Oxford Terrace bar owners and property owners towards resolving the conflict of noise from music non-compliance.

The Committee **decided**:

1. That an approach be made to the relative high-rise buildings in the Oxford Terrace bar area seeking their co-operation for the Bar Operators Association's Noise Control Officer to take noise readings.
2. That non-regulatory methods of controlling noise be investigated.
3. That options for controls restricting noise levels being emitted from car stereos in the central city be investigated.
4. That the noise levels of the Oxford Strip bars continue to be monitored as the need arises.
