

20. DEPUTATIONS BY APPOINTMENT (CONT'D)

20.1 Wai-iti Terrace

Mrs Phyl Barr, of 2 Wai-iti Terrace presented a revised design for the cul-de-sac section of the street, which would provide more space for kerb side parking. The area of landscaping between the head of the cul-de-sac and the nearby stream would be reduced as a result.

A separate report from the Area Engineer also provided details on the feedback received on the earlier circulated brochure.

The Board **resolved**:

1. That the amended plan proposed by the residents be adopted for construction.
2. That the Finance and Planning Committee be requested to include a statement regarding undergrounding in its development of the Board's 2001 Planning Statement.
