

17. WITHELLS ISLAND DEVELOPMENT

The Area Parks Advocate reported on the Board request to remove the fence and tidy the area and to advise on past consultation with community groups regarding their visions for this site. The Board **decided:**

1. That the Parks and Waterways, and Property Units not be required at this stage to remove the outer fence at Withells Island but the Property Unit be requested to tidy the area to the best possible state.
2. That the community and recreation groups be thanked for their involvement so far in the consultation and the local neighbours be given a copy of this report.
3. That the Parks Unit be requested to initiate a meeting with the neighbouring residents concerning usage of the site, with the New Brighton Residents' Association to be asked to co-ordinate the meeting.
