

16. BISHOPDALE MALL – CLOCK PROJECT – UPDATE

An update report was submitted on fundraising progress with regard to the clock project for the Bishopdale Mall being undertaken by the Bishopdale/Burnside Rotary Club.

An alternative lower cost design was now proposed as earlier fundraising projections for the original design had not been achieved. The estimated project cost for the modified design was now \$18,000 which incorporated the same clock mechanism and the engraved brick feature. The Board was asked to confirm its earlier contribution of \$5,000 for the now modified design.

Representatives from the Rotary Club were in attendance and they elaborated on the circumstances which led to the design changes.

In receiving the information, the Board **resolved** to reconfirm its funding allocation of \$5,000 towards the modified design of the proposed clock at the Bishopdale Mall.
