

4. CEMETERIES ENHANCEMENT PROGRAMME 2000-2005

The Board considered a report from the Parks Unit setting out the intended development and landscape enhancement works proposed for cemeteries in the Board's area.

Each Board was being invited to suggest areas where improvements could be made and an accompanying paper set out the funding parameters to meet both landscape and development needs along with community input requirements.

The Board **decided** that its Works and Traffic Safety Committee undertake a visit to the cemeteries in the local community with a view to identifying any opportunities for improvements for recommendation, initially back to the Board.
