

3. WINCHESTER STREET – KERB AND CHANNEL RENEWAL

The Area Engineer submitted a proposed publicity plan outlining the renewal of the kerb and channel in Winchester Street between Rugby Street and Andover Street and sought the Board's approval for its release for public comment.

The Board **decided:**

1. That the publicity plan showing the location of the proposed kerb and channel and associated works in Winchester Street be distributed for public comment.
2. That the provision of a platform at the Winchester/Rugby intersection be considered at the time the next section of Winchester Street is reconstructed.
