

## 5. WORKS AND TRAFFIC SAFETY COMMITTEE – REPORT OF 5 DECEMBER 2000

The Committee's report of 5 December along with a number of accompanying recommendations was considered and the Board **decided**:

### 5.1 Bus Shelters

That the submitted list of bus shelter sites be endorsed and that immediate priority be given to the Papanui Road and Wairakei Road locations.

### 5.2 Clyde Road - Proposed Parking Limit Lines

That it be recommended to the City Services Committee that parking limit lines be installed at vehicle entrances on the west side of Clyde Road commencing at the vehicle entrance of No.141 and finishing at the vehicle entrance of No.155b.

### 5.3 Chapter Street – Proposed Kerb and Channel Renewal

The Board considered further correspondence received from a representative of the local residents seeking a different approach to that recommended by the Committee being the circulation of plans showing two options for the reconstruction of the street.

In considering the request, a preference emerged for the 11 metre carriageway option including a split footpath layout.

The Board therefore **decided** that the publicity plan showing an 11 metre carriageway incorporating a complying split footpath layout along with accompanying text comments, be approved for distribution.

### 5.4 Jennifer Street – Kerb and Channel Renewal Update

That the information be received.
