Corporate Plan Output: Resource Consents	

The purpose of this report is to advise the Council of this year’s New Zealand Planning Institute Conference, which will be held in Tauranga from 15-17 March.

The main theme of the conference is “market rules” and consideration of the effects of an increasingly open economy on the use of resources by communities. The interventionist versus market approaches will be examined, together with the effects of these approaches from a planning perspective.

Copies of the programme outline were tabled.

Recommendation: That the Chairman, Councillor Charles Manning, and Councillor Sue Wells be authorised to attend the NZ Planning Institute Conference 2001 in Tauranga.
