

2. **SANITARY SEWER EASEMENT - HALSWELL DOMAIN**

The Board was in receipt of a report by the Parks Manager concerning a request for the Council to grant an easement over part of Halswell Domain in favour of the Christchurch City Council, in which to lay a 225 mm sanitary sewer pipe. The part of Halswell Domain that the easement is requested over is a recreation reserve.

The Board was supportive of the easement being granted and has **endorsed** the proposal. This is being referred to the Parks and Recreation Committee for its approval.
