

8. CHRISTCHURCH PUBLIC HEALTH STRATEGY UPDATE

The Committee **received** a report which advised on the further development of the process for a public health strategy for Christchurch.

An officer steering group, comprising representatives from Christchurch City Council, Crown Public Health, the Christchurch School of Medicine, District Health Board, He Oranga Pounamu, and the Ministry of Health, has been meeting regularly to develop an engagement plan to commence the process. Terms of reference have been developed and Community Boards are being advised of the process.
