

1. DEPUTATIONS BY APPOINTMENT

1.3 Heaton Street Residents Association

Messrs David Lynch and Antony Gough spoke to a tabled submission setting out various traffic and planning concerns in Heaton Street associated with the current redevelopment occurring at the St George's Hospital. The impacts on the SAM, the zoning issue affecting No 146 Heaton Street including the possible loss of the existing dwelling and the general traffic issues resulting from the hospital redevelopment were outlined. Also detailed were the recent steps taken by the Association to appear before the Council's Resource Management Committee and the recent Annual General Meeting of the Merivale Precinct Society.

Members asked a number of questions and at the conclusion of the presentation, the Board **decided** to receive the information.

To allow members to be updated with the various issues raised, it was further **decided** to invite the Chairman of the Resource Management Committee along with support staff, to brief members on either 6 or 8 June 2001.
