

21. ACCESS TO THE PROMENADE

The Board considered a report outlining the options available to provide access for disabled persons, persons with perambulators, the very young and elderly to the promenade of the Sumner Scarborough sea wall.

The Board **resolved** that the Board's preferred option is to look at an access ramp over the sea wall onto the promenade, and in the new financial year to look at options for funding and be the subject of a report to the Board.
