

## 20. LINWOOD CEMETERY

The Board considered a report advising it of the progress made through public consultation with residents regarding the issues of concern to them at Linwood cemetery.

The Board **resolved**:

1. That the working group of residents are recognised by the Hagley/Ferrymead Community Board for their enthusiasm and contribution toward the short term and long term improvements at Linwood cemetery.
2. That the concept plan of Linwood cemetery enhancement prepared by Craig Benson is adopted.
3. That a plan of action is established by the Working Party to achieve the principles and the enhancement plan during the next five years as funding allows.

The Board authorised Warwick Scadden to report to the Working Party about the idea that Task Force Green and people in periodic detention could be used to assist in the tidy-up of Linwood Cemetery.
