

10. COMMUNITY BOARD ITEMS UPDATE

Various projects/community issues were discussed:

- Telstra-Saturn Work

At a recent meeting of the Board, company representatives discussed their programme of work to be undertaken in the Riccarton and Wigram wards.

The Community Advocate (Martin Maguire) attended a meeting of the Council/Telstra-Saturn Works Subcommittee to receive the design plans for ten areas scheduled for cabling.

- Ruapuna Burn-Out Pad

Following the Council decisions (the introduction of a bylaw and the siting of the burn-out pad onto the Christchurch Speedway Association facility), the Board was advised of the current position in respect of the Associations resource management application.

- Representatives on "Outside Organisations"

Various members reported on recent activities of the Riccarton Bush Trust, Selwyn Rural Water Supply Committee, and some resident associations.

- Community Board, New Zealand Conference, Invercargill

The Board was represented by Mike Mora and Ishwar Ganda (accompanied by Board Secretary, Roger Cave); they reported on the conference.

- Commercial/Council Property-holdings in Riccarton

For some months the Board has been awaiting a previously-established Subcommittee (of Projects and Property Committee) to consider Council property holdings in Riccarton.

Two private sites, currently on the market, were identified by the Board for possible Council investigation for a community library.
