

**5. DEPUTATIONS BY APPOINTMENT - MR BRIAN FAIRBRASS, 402A FERRY ROAD**

Mr Fairbrass attended the meeting and spoke regarding his concerns at the Adshel bus shelter which had been recently installed adjacent to his property in Ferry Road.

Mr Fairbrass's concerns related mainly to the issues of privacy and intrusion caused by the illuminated advertising on the shelter.

After considering Mr Fairbrass's representations the Subcommittee **decided** that staff be requested to look at ways of mitigating the effects of the illuminated advertising by either/or providing tinting to the rear of the shelter and lowering the lighting intensity.
