

9. FORMER FENDALTON LIBRARY

The Community Advocate and the Community Development Adviser jointly reported on an option for the development of the former Fendalton Library as a community facility to supplement the adjacent Fendalton Community Centre. The report also highlighted the interest of the nearby Fendalton School in utilising the now vacant building.

The establishment of a joint working party was proposed to work through the various issues with a view to presenting a proposal to the Council in due course.

The Board **decided:**

1. That the information relating to the Advocacy Team's proposal, and the indicative costs associated with the proposal, be received.
2. That the views of the school on the future utilisation of the Council's buildings on the site be noted.
3. That a joint (School/Board) Working Party be established to develop a proposal for utilisation of the former library with a view to presenting this to the Council in due course.
4. That the Chairman of the Community Services Committee and Val Carter represent the Board on the joint working party and that the school's Board of Trustees be invited to appoint two trustees as well.
