

2. WAIMAIRI ROAD PEDESTRIAN ISLAND AT WENTWORTH STREET

The Traffic Engineer reported on a proposal to install a pedestrian island and associated road markings in Waimairi Road south of Wentworth Street and sought approval for the proposal to be circulated for public comment. The results of the consultation would be reported back to the Board and City Services Committee in April with a view to undertaking the work in May 2001.

Some concern was expressed at the proposal to mark cycle lanes on Waimairi Road and in this regard it was requested that the provision of an off-street cycle facility in the immediate area be further investigated.

The Board **decided**:

1. That the proposal be circulated for comment.
2. That in conjunction with this proposal, the City Streets Unit also investigate the provision of an off-street option(s) for cyclists in the immediate area.
