

#### 4. FUTURE OPTIONS FOR SALE OF SURPLUS PROPERTY

The Property Projects Officer (Steve McCarroll) submitted an update report on progress towards the possible future sale of a number of individual properties which had previously been identified as surplus to the Council's requirements. The recent reorganisation of the surplus property budget over the next five year period has resulted in property/land disposals proceeding generally according to the programme. There are a number of additional properties to be dealt with in the 2001/02 budget year which will be the subject of a further update report to the June meeting of the Committee.

The Committee **received** the report, and requested that a tour of the affected properties be arranged for members of the Committee, prior to the June meeting.

The Committee also **decided** to hold a seminar meeting in July or August to discuss the Council's overall property holdings.
