

5. COASTAL PARKS STRATEGY

The Parks and Waterways planner reported to the Board on the submissions received and recommendations from the Coastal Parks Strategy 2000/2010. The Board made several further suggestions including:

- Installing dog control signs on the coastal tracks rather than at each end.
- Installing signs on the beach to indicate the position beyond the sand dunes.
- Controlling development along the foreshore eg. Brooklands lagoon.
- Opening up Harbour Road to allow access to the lagoon, and tidying up of this area.

The Board **decided** that the officer's recommendations be supported and that the Board's suggestions be referred to the Parks and Waterways Unit.
