### 5.2 Access And Equity For People With Disabilities Policy

That the following comments be taken into consideration:

- Diversity – question the term “disability community”.
- Page 4 – “The Council has the following roles:” – the words “as educator” to be added.
- Page 5 – “Psychiatric Disability or Mental Health Condition” – insert examples, such as chronic depression.
- Page 7 – Goal 2a, point 2.5 – change the word “customers” to “people”.
- Page 11 – “Prevention” needs to be cross-referenced to other Council policies, ie host responsibility.
- Wording throughout the document needs to be more generic to indicate not everyone can be covered, ie use phrases such as “where possible” and “where applicable”.
